HEAVY PRIMARY VOTE BEING POLLED IN AMARILLO

TABULATIONS SHOW BALLOTING LARGER THAN DURING JULY

A heavy vote is being polled in the run-off primary election today, indications are that the ballots will be larger than they were in the July election. Reports compiled by the Daily Panhandle showed that 588 ballots had been cast at four city boxes at 1:15 o'clock this afternoon, while 578 votes were reported at 1:30 o'clock in the recent election.

Electioneering around the polls is practically at a standstill today. No political supporters are standing around passing out campaign cards for their favorites as in July. Apparently, it is said, political leaders believe the qualified voters have made up their minds as to the fitness of the candidates.

Around the polls, however, are several persons soliciting signatures to petitions to be presented to the county commissioners, asking for aid for a library.

Votes so far reported are: Sixteenten street fire station, 195; Brazelton Lumber Company, 55; City Hall, 154; Court House, 154. These polling precincts had the following votes last election at this hour: Sixteenth street fire station, 200; Brazelton Lumber Company, 45; City Hall, 156; Court House, 177.

As there are only three offices with six candidates, it is expected that the votes will be counted within a few minutes after the polls close at 7 o'clock tonight.

Neff supporters are claiming a substantial majority in Potter
